Section I DEFINITIONS AND MATERIAL RISK WARNINGS

II. MATERIAL RISK WARNINGS

The business of the Group is highly dependent on the overall economic and market conditions in China and other countries or regions where it operates. Our results of operations may be materially affected by various factors, such as macro-economic environment, cyclical fluctuations of the industry, development stages of the market, behaviours of the investors and the international economic conditions.

The Group is exposed to major risks in its business operations, including legal and compliance risks, whereby the securities company may be subject to legal liabilities or regulatory penalties, disciplinary actions due to failure to comply with laws, regulations and rules; credit risks, which may result in losses to the operations due to the inability of a borrower, counterparty or debt issuer to meet its agreed financial obligations; market risks, where proprietary investments record losses due to adverse fluctuations of market prices; operational risks triggered by deficiencies in internal processes, operational error and misconduct of staff, IT system failures, or impact from external sources; liquidity risks, where the Group is unable to obtain sufficient funds in a timely manner at a reasonable cost to repay the due debts, fulfil other payment obligations and meet the capital requirements for carrying out normal business; and reputational risks, where the corporate image among stakeholders is damaged due to the Group's operations, management, other acts or the external incidents. All these risks may directly affect the results of operations and financial conditions of the Group. In addition, these effects may overlap with each other due to the certain inherent correlation among these risk factors.

For the specific analysis of the above mentioned risks and measures that the Group has taken or will take, please refer to the "Potential risks and prevention measures" under the "Report of the Board of Directors" of this Report and pay special attention to the above risk factors.

Section III REPORT OF THE BOARD OF DIRECTORS

(II) Development stage and cyclical features of the industry in which the Company operates and its industry position during the Reporting Period

1. *Market environment*

In the first half of 2021, the global economy continued to recover. Production was gradually approaching the level before the pandemic, consumption was recovering faster, and the trades in goods and services continued to grow steadily. The liquidity in the global financial market was ample and market interest rates remained low. The U.S. dollar index fluctuated at a low level, and commodity prices rose sharply. The A-share market fluctuated upward. The Shanghai Composite Index rose 3.4%, and the SZSE Component Index and the ChiNext Index rose 4.78% and 17.22%, respectively. The ChiNext Index hit a new high since June 2015; the bond index rose slowly, and the ChinaBond Total Net Price Index rose 0.38%.

At present, the world economic landscape is undergoing profound changes, and the development of the pandemic is still full of uncertainties. The implementation of large-scale fiscal stimulus policies and loose monetary policies by major developed economies has stabilized market confidence to a certain extent and reversed the economic downturn, but it has also brought about problems including liquidity overflow, sharp fluctuations in asset prices, and rising vulnerabilities in the international financial market. Trade protectionism continues to spread, and global industrial chains and supply chains are under impact. All countries are paying more attention to the key role of technological innovation in economic transformation and actively fostering new momentum of long-term and healthy economic development. In order to achieve high-quality economic development, China is building a new development pattern with domestic circulation as the mainstay while promoting interplay between domestic circulation and international circulation. It is also deepening supply-side structural reforms, accelerating the implementation of innovation-driven development strategies, and striving to promote the high-level circulation among technology, capital and the real economy. The role of the capital market has become increasingly prominent. As an important participant in the capital market, the securities industry has ushered in a new period of development opportunities in serving the real economy.

2. *Industry landscape*

The “14th Five-Year Plan” period will be a critical period for China’s capital market to achieve the goal of “building a regulated, transparent, open, dynamic and resilient capital market”. As a resource allocation market, the capital market will continue to support the advancement of national strategies, including the development of strategic emerging industries, carbon peaking and carbon neutrality. Regulatory departments will further improve the establishment of basic systems in the capital market. Adhering to the work policy of “building systems, non-intervention, and zero tolerance”, regulatory departments will comprehensively deepen the reform of the capital market, and promote the high-quality development of the capital market. In the context of stricter supervision, institutionalized customer structure, diversified demands, fierce competition in the industry, and homogenization of development, the securities industry continues to uphold innovation, enhance core competitiveness, stay true to the original goal of the financial industry of serving the real economy, and implement and promote the implementation of national strategies.

3. *Position of the Company in the industry*

In the first half of 2021, the Group realized a revenue of RMB30,774 million, a net profit attributable to the shareholders of the parent company of RMB8,170 million. As at 30 June 2021, the total assets of the Group was RMB723,092 million and the net asset attributable to the shareholders of the parent company was RMB158,179 million. The main financial indicators of the Group have remained at the forefront of the industry for many years.

4. Industry-leading international cross-border service platform

Through acquisition and consolidation of Haitong International and Haitong Bank, and establishment of a branch in Shanghai Free Trade Zone (FTZ), the Group has established an industry-leading international business platform and hence acquired first-mover advantages in the Asia-Pacific region, as well as the forward-looking strategic reserve in Europe and the United States.

Haitong International continued to reinforce its leading position among Hong Kong's investment banks. For equity financing, it took the lead in IPO business among all investment banks in Hong Kong, and continued to boost its project execution capabilities and brand influence in overseas markets. For global debt financing business, it ranked front among Asian G3 High-yield Corporate Bond Market (excluding Japan) in terms of the number of bonds underwritten. Its derivatives business maintained sustained growth. The product line of the asset managements was gradually improved with outstanding investment performance, and its wealth planning business continued to foster a top-tier talent team in private wealth management.

Haitong Bank is an important part of the Group for deepening the Group's globalisation strategy and an important platform for the Group to implement the "Belt and Road" initiative. Haitong Bank specializes in local market in the European Union and South America and has over 20 years' experience. With full banking licenses, Haitong Bank is able to strengthen its strategy of "China Element (中國元素)" in its business expansion to provide cross-border financial service supports for the "Belt and Road" initiative, as well as support its extensive coverage of local business.

The Group's FTZ branch, one of the first securities institutions participating in the FTU (自貿區分賬核算單元) system of the free trade zone, has become the first PRC securities firm completed in the cross-border financing project under FT (自由貿易賬戶). In May 2016, it became a Class A international member of the Shanghai Gold Exchange, and obtained foreign currency lending membership of the China Foreign Exchange Trade System in November 2018.

These industry-leading, all around and multi-jurisdiction international business platforms will enable the Group to seize opportunities for ever growing cross-border businesses, meet customers' demands for cross-border business and improve the Group's international influence.

5. *Financial leasing business*

Market conditions:

In the first half of 2021, the financial leasing industry was faced with severe challenges including slowdown in market growth, increasingly fierce homogeneous competition, increased pressure on asset quality and risks control and the urge to adjust operating strategy and business model, thus the development of industry kept the trend of slowdown in growth the same as 2020. In the mid- and long-term, with China's economic growth, upgrading in industrial structure, and construction of new infrastructure, along with the vigorous development of emerging industries in the new era of "14th Five-Year Plan", China's financial leasing industry is still in the stage of steady growth and the vitality of the industry remains strong. In the meantime, with promulgation of local financial leasing industry regulations and the implementation of specific regulatory measures, leasing enterprises with irregular operations and non-standard governance will be integrated and cleared in a faster pace and the industry will be further concentrated, offering more favorable business environment and development opportunities to leading enterprises with sound governance, compliant business operations and strong strength. In the first half of 2021, the financial system continued to consolidate major strategic achievements in coordinating epidemic prevention and control as well as economic and social development through prudent monetary policies that are flexible, precise, reasonable and appropriate, thereby continued to improve the funding structure of financial institutions, kept a stable macro leverage ratio and further lowered real lending rates. Bonds issuance in the financial leasing industry amounted to RMB300,000 million in the first half of 2021, and using capital market for diversified and stable direct financing has become an important method of financing for leading leasing enterprises.

In respect of the risk management of subsidiaries, all subsidiaries operate in a standardized way and in accordance with the law. The Company integrates the risk management of subsidiaries into its overall risk management system through various mechanisms. The Company has effectively implemented vertical risk management for subsidiaries in terms of nomination of subsidiaries' persons in charge of risk management, release of risk limit indicators, risk events and risk assessment reports, approval of major issues, incorporation of risk data into the Company's unified management, supervision and inspection, risk management assessment, etc.

3. *Prevention measures to potential risks and the performance during the Reporting Period*

The risks faced by the Company in business operation activities mainly include: compliance risk, money laundering and terrorism financing risk, credit risk, market risk, operational risk, liquidity risk and reputation risk, which are detailed as follows:

(1) *Compliance risk*

The compliance risk mentioned in the Measures for the Compliance Management of Securities Companies and Securities Investment Fund Management Companies (《證券公司和證券投資基金管理公司合規管理辦法》) refers to the risk that a securities fund management company may be investigated for legal liabilities, subjected to regulatory measures, disciplinary action, or suffers property loss or reputation loss due to violation of laws, regulations and rules due to the management or practice of the securities fund management company or its staff.

The Company has established scientific and reasonable compliance management framework systems with clear responsibilities according to the compliance management regulatory requirements and the actual situation of the Company. The responsibilities and duties of the Board of Directors, the Supervisory Committee, the person in charge of operation and management, the General Compliance Officer, and other senior management in respect of compliance management are further clarified. The work division and coordination and interaction of the compliance department, other internal control departments and subordinate units of the Company (including each department, branch and subsidiary) are further defined. The Company has formulated the Measures for the Compliance Management of Haitong Securities Co., Ltd. and relevant ancillary compliance management systems, and assigned a team of compliance management personnel to strictly carry out compliance management for each business line. These measures serve to strengthen the enforcement of different systems, mechanisms and processes via prior review, in-process monitoring and post-action inspection, assessment and accountability. Meanwhile, the Company enhanced policy communication and compliance advocacy so as to create a business environment of "Full Compliance and Active Compliance".

Section III REPORT OF THE BOARD OF DIRECTORS

In the first half of 2021, to effectively prevent compliance risks and to facilitate the effective operation of the Company's compliance management for sustainable, healthy and compliant development, the Company continued to enhance prior review, in-process monitoring and post-action inspection, assessment and accountability in its compliance process, continued to enhance the Group's compliance management, advanced the development of the central control room and information isolation wall of the Group, strengthened the review of the rules and regulations of the Group, ramped up compliance inspections, extensively promoted the compliance management requirements of the securities business and continually fostered the frontline environment of "Full Compliance and Active Compliance".

(2) *Money laundering and terrorism financing risk*

The Guidelines for the Management of Money Laundering and Terrorism Financing Risk of Corporate Financial Institutions (Trial) 《法人金融機構洗錢和恐怖融資風險管理指引(試行)》 sets out specific requirements for the management of money laundering, terrorism financing and proliferation financing risks. The risk of money laundering, terrorism financing and proliferation financing exposing to the Company refers to the possibility that the Company's products or services are used by lawbreakers to carry out money laundering, terrorism financing and proliferation financing activities.

The Company has always adhered to the work principle of taking risk prevention as its first priority, and adopted relevant measures to control the risks of money laundering and terrorism financing in strictly accordance with anti-money laundering laws and regulations. The Company has developed a relatively well-established anti-money laundering internal control system, which consists of the basic anti-money laundering system, implementation rules and various anti-money laundering special systems, and incorporated the relevant anti-money laundering contents in the Company's file management, compliance assessment and punishment rules. The Company has established a sound anti-money laundering organisational framework under the Board, forming an anti-money laundering management system coordinated by the anti-money laundering leading group of the Company, led by the compliance department for organization and implementation, and implemented by relevant business departments and branches.

In the first half of 2021, the Company commenced the anti-money laundering V8 system upgrade project to enable the risk classification management for money laundering and the monitoring and analysis of suspicious transactions on a "customer" basis, and further improved system functions and optimized system monitoring models, so as to improve the efficiency of anti-money laundering. Meanwhile, the Company further conducted customer data management, continued to supervise branches on carrying out customer identification.

Section III REPORT OF THE BOARD OF DIRECTORS

Furthermore, the Company progressively researched and explored the application of new technologies in anti-money laundering, and continued to improve the efficiency and ability to perform its duties in anti-money laundering. Faced with a regulatory environment that strictly complies with the law in an all-round manner, the Company constantly reinforced its duty performance capabilities in anti-money laundering so as to enhance the standard for anti-money laundering compliance management.

(3) *Credit risk*

Credit risk refers to the risk that the Group may suffer loss as a result of failure by the borrower, counterparty or debt issuer to perform the stipulated financial obligations or any adverse change in their credit standing.

A. *Risks relating to self-owned monetary funds deposited in other financial institutions and securities brokerage business*

The Company's monetary funds are mainly deposited in state-owned commercial banks or joint-stock commercial banks with good reputation, while the clearing settlement funds are deposited in China Securities Depository and Clearing Corporation Limited. Such cash and cash equivalents are facing a relatively low credit risk. In terms of securities brokerage business, trading is settled under gross margin to avoid relevant credit risks.

B. *Risks relating to trading finance business*

The Group's trading finance business mainly includes: margin financing and securities lending, stock pledged repurchase, margin trading, stock repurchase transaction, etc. The relevant involved companies mainly manage and control the credit risk through formulating and implementing various strict systems and measures on due diligence, internal credit rating, project evaluation, credit approval management, daily mark-to-market, limit monitoring, post-lending tracking, credit enhancement, liquidation execution, judicial recourse and provision making. During the Reporting Period, the relevant entities of the Group continued to strengthen the credit and concentration management system, dynamically optimized the credit rating and secured securities discount rate models for specific customer groups, incorporated environmental, social and corporate governance risk assessment into the risk assessment process, and actively adjusted assets portfolio and structure and promoted risk mitigation procedures.

Section III REPORT OF THE BOARD OF DIRECTORS

C. *Risks relating to credit bonds transaction and investment business*

The Company focuses on controlling concentration risk through a diversified investment. Investment subjects are mostly high credit rating assets. In credit risk management, the Company also keeps a close track of the operating conditions and credit rating changes of investment subjects and implements internal rating and standard credit management system and identifies and supplements credit risk monitoring indicators such as debt issuers, industries and geographic concentration. During the post-investment monitoring process, the Company updates the internal rating of debt issuer and credit limit indexes in a timely manner in accordance with the changes in financial indicators, significant risk events and negative public opinion, etc., and dynamically adjusts trading strategies.

D. *Risks relating to financial leasing business*

In terms of conducting financial leasing business to support the development of the real economy, the Group develops credit risk management policies according to the industry and customers equally-focused strategy. In terms of industrial credit risk management, the Group dynamically tracks and assesses those risks according to the prosperity of the industry where financial leasing customers are operating, and correspondingly formulates relevant industry investment policies to control industry concentration risks. In terms of customer credit risk management and control, the Group mainly manages and controls customer credit risk through due diligence, internal rating, credit review, post-loan asset inspection, risk early warning and monitoring, and concentration limit control and other measures.

E. *Risks relating to short-term intra-industry borrowing business such as bond repurchase, and over-the-counter derivatives business*

As for the short-term intra-industry borrowing business such as bond repurchase, the Company carefully selects the counterparties with good credit standing and secured securities with high credit rating through counterparties access and credit granting management, so as to control the level of credit risk from the source. In terms of over-the-counter derivatives business, the Company establishes a sound regulation system and procedure covering areas including counterparties access and credit rating management, subject securities management, risk responses and disposals and conducts daily marking-to-market evaluation throughout the term of over-the-counter derivative transaction and manages counterparty credit risk by fully adopting measures such as net settlement and performance guarantee. The Company's counterparties of short-term interbank borrowing and over-the-counter derivatives businesses are mainly commercial banks, securities companies, asset management plans and other entities. The Company selects appropriate business models

Section III REPORT OF THE BOARD OF DIRECTORS

carefully and strictly controls the business scale and adopts appropriate risk control measures during the operations of the aforesaid businesses. In the meantime, the Company paid attention to the correlation between credit risk and market risk, and adopted necessary monitoring and countermeasures for credit risks in the context of market fluctuations, including but not limited to transaction margin arrangement, internal rating, credit management of counterparties, future potential risk exposure measurement and wrong-way risk identification, etc.

The Group continues to improve the group-level credit risk management system in accordance with industry regulatory policies, capital market environment and the Group's business development strategies. During the Reporting Period, the entities of the Group have fully identified, assessed, measured, monitored, reported and eliminated the group-level credit risk with the same client and the same business as the core based on the Group's credit risk management measures and other systems. For example, relying on the Group's T+1 risk data mart, the Company has established and improved a group-level credit risk management information system that can cover the business of parent company and subsidiary. By improving the ability of risk identification, measurement and stress testing to continuously improve the credit risk limit system in the dimensions of asset quality, risk offset and concentration risk at the group level, efforts should be made to promote the group-level unified rating and centralized credit management mechanism, establish customer relationship structure underpinned by finance technology and develop public opinion risk monitoring and high-risk customer management tools, strengthen the systematic reporting process of credit risk assets of various entities of the Group, so as to effectively track and monitor the overall credit risk status and the implementation of risk limits of the Group. During the Reporting Period, the Group's core credit risk monitoring indicators were operating steadily, and the overall credit risk was under control. For three types of financing business, the Company actively optimized the business structure, carefully assessed new projects, and enhanced the tracking, monitoring and management of existing projects. It strengthened the debt collection efforts on existing risky projects and made provision for credit impairment in a prudent and proactive manner, thereby ensuring adequate risk provision. As of the end of the Reporting Period, the average performance guarantee ratio of our customers in margin financing and securities lending business was 281.74%, the average performance guarantee ratio of our customers in securities repurchase transaction business was 236.69%, and the average performance guarantee ratio of our customers in stock pledged repo business operated was 304.54%. The collaterals provided by the borrowers were sufficient, and the overall credit risk was under sound control.

Section III REPORT OF THE BOARD OF DIRECTORS

(4) *Market risk*

Market risk mainly refers to the risk of losses of the Group's self-owned funds investment related business due to adverse changes in market prices (stock prices, interest rates, exchange rates, etc.) in its business activities.

- A. **Stock price risk.** Stock price risk mainly refers to the risk of changes in the market prices of the equity securities invested by the Group which could bring loss to the Group. The businesses with such risk mainly include equity securities proprietary business, market-making business and over-the-counter derivatives business, etc. With high uncertainties, stock price risk is one of the major market risks that the Group faces. The Group closely monitors the price fluctuation of relevant assets and has adopted relevant preventive measures, that is, it monitors and controls those risks through tracking any variation in investment scale and value-at-risk (VaR) of securities positions on a daily basis. By implementing diversified investment strategies, the Group properly controlled and timely adjusted total investment amounts of various securities, and managed the market risk effectively by combining the use of various hedging instruments.
- B. **Interest rate risk.** Interest rate risk refers to the risk caused by changes in factors such as the market yield curve or credit spread. The businesses that bear such risks mainly include bond investment business and interest rate derivatives business. The Group managed interest rate risk by employing methods such as size control and investment portfolio re-balancing to achieve a reasonable allocation of assets, to match the maturities of liabilities and assets and by evaluating interest rate risk through regular measurement of indicators such as duration, convexity and DV01 of investment portfolios.
- C. **Exchange rate risk.** Exchange rate risk refers to the risk resulting from changes in foreign exchange rates. During the Reporting Period, the Group's international layout continued to improve. Facing the complex and volatile overseas market, the Group took the initiative to reduce the leverage level of overseas assets. The overall scale of foreign currency assets was reduced, and the risk exposure of exchange rate was also reduced accordingly. The Group continued to monitor and study the latest developments in the foreign exchange market, constantly optimised system construction and internal management, took various measures to hedge and mitigate exchange rate risks exposure. The Group focused on matching foreign currency assets and liabilities to reduce the foreign exchange risk exposure. The Group also adopted treatments, for example, hedges of net investment in overseas operations and other means, to smooth the influence of foreign currency exposure on the Group's operating results. As at the end of the Reporting Period, the Group's exchange rate risk had no material impact on the financial statements.

Section III REPORT OF THE BOARD OF DIRECTORS

Save as the above-mentioned risk factors, overseas investment and transaction businesses conducted by the Group are also exposed to relevant market risks. Fluctuations of each element of market risk around the world may affect the overall profit or loss of the Group. During the Reporting Period, under the relevant requirements of the Group's market risk management measures, the Company continuously sped up the implementation of the procedures of market risk identification, assessment, measurement, monitoring, response and reporting at the Group level, and included the investment and transaction businesses of subsidiaries into the overall market risk management system. In terms of investment and transaction businesses conducted by the subsidiaries of the Group, the Group manages and controls those risks by setting and assigning market risk limit indicators such as value-at-risk limit and stop loss limit. Subsidiaries are required to strictly implement such requirements in daily business activities and submit risk reports to the parent company as required. The Group tracks and supervises its subsidiaries on their market risk profile and the implementation of risk limits based on the Group's T+1 risk data mart, the Group's market risk management system, risk reporting and other instruments or means.

The Group measures and controls market risks arising from various investment and transaction businesses through a VaR-based quantitative indicator system for market risks. VaR refers to the maximum possible loss arising from an investment portfolio due to market fluctuations in a specific forward-looking period in the future at a certain level of confidence, which is the main indicator to measure market risks. The specific measurement parameters of the Group's VaR model are confidence level of 95% and forward period of 1 day. The measurement of the model covers various financial assets and derivatives such as equity, interest rates and foreign exchange held at the Group level. The Group continuously monitors and evaluates the effectiveness of the VaR model by back testing and other means, and improves the VaR model according to the needs from business development and risk management. In addition, the Group has established a stress test management mechanism as an important supplement to the VaR model. By establishing various historical scenarios and simulation scenarios as well as the corresponding stress test transmission mechanism, the Group can measure the extreme losses that the investment and transaction businesses may face, and assess whether the losses are controlled at an acceptable level. During the Reporting Period, the ratio of the Company's VaR to its net assets at the end of each month and the ratio of the Group's VaR to its net assets both were kept under 0.3% and the market risk was controllable and acceptable.

Section III REPORT OF THE BOARD OF DIRECTORS

(5) *Operational risk*

Operational risk refers to the risk associated with losses arising from the defects of the internal processes, misoperation or misconduct of staff, information system defects or breakdown, and external factors. Operational risk runs through all aspects of the Company's business development and daily operation process, and may lead to legal risk, compliance risk, reputation risk and other risks.

Pursuant to the operational risk management measures, the Company leveraged on various tools (including Risk and Control Self-Assessment, Key Risk Indicators and Loss Data Collection) to carry out the identification, assessment, monitoring, response and report of operational risk. While conducting risk and control self-assessment within the Group, the Company rationalized and updated the business process, identified risk points in main business processes, assessed inherent risk levels, effectiveness of control measures and residual risk levels. The Company established the Key Risk Indicators System covering the main departments and units of the Group, and collected and tracked the indicator values and their dynamic changes regularly. The Group conducted Loss Data Collection of operational risk within the Group, summarised and analysed relevant information, as well as followed up the progress of risk mitigation measures.

During the Reporting Period, the Company and related subsidiaries were subject to regulatory measures taken by regulatory authorities and the association of interbank traders due to violations of self-discipline management rules of the interbank market and incompliances in the process of developing the businesses of bond investment advisory and private asset management. In this regard, the Company attached great importance and implemented the relevant rectification work comprehensively and thoroughly in time in accordance with the requirements of supervision.

For information technology risks, the Company was continuously strengthening the construction of the information technology management system, continuously improving the network and information security incident emergency plan, monitoring and managing the information technology related conditions of system operation, system establishment, information security, technology management, etc. by carrying out regular drills, adopting regular or irregular monitoring, special inspections and other methods, to prevent information technology risks. The Company continued to strengthen the construction, operation and maintenance of its information technology systems and conducted regular and irregular inspections and maintenance in strict accordance with the operational management procedures to ensure the reliability, stability and safe operation of the systems, and no major information technology risk events occurred during the Reporting Period.

Section III REPORT OF THE BOARD OF DIRECTORS

(6) *Liquidity risk*

Liquidity risk refers to the risk that the Company is unable to gain sufficient funds with reasonable cost in a timely manner to pay its due debts, satisfy other payment obligations and meet the requirements for carrying out normal business operations. As the proprietary trading business and financing business of the Company are relatively large, it is easily affected by the factors including macro policy, changes in market, operation conditions and client credit profile during its operations. Meanwhile, liquidity risk may also result due to unmatched asset-liability structure.

In respect of daily liquidity risk management, by adhering to the determined liquidity risk preferences and limits of risk indicators, the Company has successfully contained the liquidity risk exposure within a reasonable range through reasonable monitoring mechanism and control measures. The Company reserved sufficient quality liquidity assets in compliance with management requirements, which ensured smooth business development and timely repayment of matured liabilities of the Company. II. DETAILS ON CONSOLIDATING AND EXPANDING THE RESULTS OF SHAKING OFF POVERTY, RURAL REVITALIZATION AND OTHER WORK

The year of 2021 marks the 100th anniversary of the founding of the Communist Party of China as well as a crucial year for the strategic connection between poverty alleviation and rural revitalization. Under the leadership of the CSRC and the municipal Party committee and the municipal government of Shanghai, Haitong Securities continued to advance poverty relief through “one company to one county” and “double one hundred” pair-up, assisted Lixin County and Shucheng County in Anhui, Ningdu County in Jiangxi, Xichou County in Yunnan and Yecheng County in Xinjiang in shaking off their poverty and consolidated the results of shaking off poverty of three poverty-stricken villages in Xichou County in Yunnan. Based on the practical activities under “I Handle Tangible Issues for the Public”, it carried out public welfare activities under the theme of “Voluntary Gifts for the 100th Anniversary of the Founding of the Communist Party of China”. It strived to solve practical issues of the public in counties shaking off poverty and boosted the regional economic growth in such counties to achieve high-quality development.

(I) Renewed friendship facilitates assistance and support

In November 2020, the Party committee of Haitong Securities renewed the pair-up poverty relief agreement of “hundred enterprises in support of hundred villages” with Zhongzhai, Mepuzi and Wangjiatang villages of Xichou County in Yunnan and entered into the pair-up agreement on rural revitalization with five counties shaking off poverty, namely Xichou County in Yunnan, Yecheng County in Xinjiang, Lixin County and Shucheng County in Anhui and Ningdu County in Jiangxi. In the first half of 2021, the Company earnestly implemented the requirements of “Four Don’ts (四不摘)” of the Party central committee and continued to provide assistance funds to pair-up counties. It offered RMB1.50 million to “double one hundred” pair-up villages to support the development of flue-cured tobacco and spring water processing industries for such three villages and infrastructure construction for local education. It arranged RMB1 million to Ningdu County in Jiangxi to support the construction of the local Changcheng Central Hospital. It supported the program on the construction and protection of three-line culture in Shucheng County in Anhui; and supported Yecheng County in Xinjiang to complete the construction of safe classrooms, dancing classrooms, playing grounds for kindergartens as well as the improvement of teaching research under the “Baoye Research Assistance” program.

(II) Financial empowerment injects momentum for development of pair-up counties

In 2019, the Company successfully issued the first “poverty alleviation bonds + credit protection certificate” in the industry for Lixin County in Anhui, empowering Lixin County with the credit of Haitong to raise funds through market-based means. It assisted Lixin County in successfully issuing the second tranche in 2020. In the first half of 2021, the Company compiled a county development report for Lixin County based on its preliminary project researches, which was included in the compilation of reports on poverty alleviation by the Securities Association of China.

Section V ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

(III) Consumption facilitates integration of assistance work into culture construction of the enterprise

In 2020, the Company explored “notoginseng”, a premium medicinal material in Xichou County in Yunnan, and produced “Haitong Notoginseng (Sanqi) Powder”, a featured gift on poverty alleviation of the Company. The term Sanqi means the number 3 and 7, connoting the stock code of Haitong Securities of “600837”. The product was recognized by and popular among its partners and customers. In the first half of 2021, the Company purchased “Zhenbang” and “Zhenhao”, featured tea in Yunnan, with a value of RMB299,000 as gifts. Weitai Properties, a subsidiary of the Company, actively purchased featured agricultural products as raw materials for its staff canteen.

(IV) Learning the Party history and earnestly implementing the list of public welfare programs under “Love in Haitong” in 2021

In March 2021, the Company initiated series of public welfare programs under the theme of “Voluntary Gifts for the 100th Anniversary of the Founding of the Communist Party of China”. Based on the education on learning the Party history and the requirements on “learning the Party history, understanding ideas, doing practical work and opening up a new situation” and fully leveraging on the characteristics of Party organizations with “various points and wide coverage”, the Company arranged all Party, labor union and Chinese Communist Youth League organizations to earnestly implement the list of public welfare programs under “Love in Haitong”. Relying on the advantages of platform of Haitong Securities’ state-level investor educational base, the Party and Chinese Communist Youth League organizations of the Company at all levels visited over 50 schools in 30 provinces, municipalities and autonomous regions and carried out financial education through the “Rainbow Classroom” for 37,110 students, helping teenagers in poverty-stricken areas establish the right wealth management concept and awareness on preventing financial risks. The Company continued to conduct “Love in Haitong, Charitable Student Aid (愛在海通•美麗助學)” in Kashgar of Xinjiang and Shigatse of Tibet. It has provided pair-up assistance to 50 Tibet college students and 100 primary students in Shigatse so far. The Company actively conveys the public welfare concepts of “Love in Haitong” to its partners and customer enterprises. In June 2021, it joined TCL in donating multi-media teaching machines with a market value of RMB600,000 to 30 kindergartens in Yecheng, Shache and Bachu counties in Kashgar of Xinjiang. In 2021, the program of “Love in Haitong, Beautiful Courtyard (愛在海通•美麗庭院)” was smoothly advanced in Lankao County of Henan, contributing to the construction of beautiful countryside.

In the future, Haitong Securities will continue to fulfill the social responsibilities of state-owned financial enterprises and make greater contributions to the strategy on rural revitalization under the leadership of superior authorities.

Section V ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

III. ACTIVELY PERFORM OTHER WORKS IN RESPECT OF SOCIAL RESPONSIBILITIES

In July 2021, Zhengzhou and several other places in Henan province were confronted with the heaviest rainfall on record, and the flood control situation was extremely severe. In the face of the flood, the party committee of Haitong Securities earnestly studied and implemented the important instructions of General Secretary Xi Jinping on flood control and relief work, attached great importance to and actively responded to the situation, and actively fulfilled the responsibilities of state-owned financial enterprises while guaranteeing the life safety of employees in Henan. The party committee of the Company decided to donate RMB5 million as disaster relief funds, and organized special forces to transform public welfare funds into supplies in short supply on the front line, and spare no effort to help Henan in flood relief. As at the end of July 2021, Haitong Securities donated flood relief and condolences supplies worthy of nearly RMB2 million in total to the disaster-stricken areas in Henan, which strongly supported the local flood fighting work and helped the victims to rebuild their homes.

In order to assist in relief in accurate aspects and make full use of relief funds, the party committee of the Company commanded and coordinated various parties. Right after receiving the message, the general Party branch in Henan was instructed to look into the actual situation of disaster-affected areas and register the list for needs. All lines of business, functional departments and branches were mobilized to actively cooperate in sourcing supplies from enterprises which are our clients. Through combining “urgent” procurement in the market of Henan and “assembled” procurement from the customer enterprises nationwide, the Company donated to Henan more than 360 sets of generators, more than 500 sets of draining pumps and other relief equipment in short supply, 5,000 square meters of non-woven geotextiles, 5,200 square meters of anti-seepage cloth, 10 kayaks and other flood relief supplies as well as disaster relief food such as drinking water, grain and oil and medical supplies. A squad consisting of party members travelled round the clock for five days against the rainfall to three severely flooded areas including Fugou in Zhoukou, Junxian in Hebi and Weihui in Xinxiang. The relief supplies were delivered to the affected areas in three batches on 27, 29 and 30 July 2021, respectively, right before the Covid-19 outbreak in Henan province.

In the next step, the Company will carry out the follow-up supplies procurement and donation according to the requirements for regular epidemic prevention and control.

Explanations on guarantees

- (1) On 28 August 2020, the Company convened the 11th meeting of the seventh session of the Board, at which the Resolution on Providing Joint Liability Guarantee for Offshore Debt Financing of an Offshore Wholly-owned Subsidiary was considered and approved and the Company was approved to provide a joint liability guarantee for offshore debt financing (including but not limited to issuance of overseas bond, medium-and long-term commercial borrowings and other financing methods in compliance with regulatory requirements) of the offshore wholly-owned subsidiary Haitong Bank or subsidiaries thereof, with a guarantee amount of not more than EUR375 million covering debt financing principal (inclusive, or other currencies with equivalent value), interest and other fees to be borne by the borrower, and a guarantee period of not more than 6 years (inclusive).

The Company signed the Loan Agreement as a guarantor on 17 May 2021, to provide a joint liability guarantee of EUR375 million (inclusive, or other currencies with equivalent value) for the syndicated loan of Haitong Bank, an offshore wholly-owned subsidiary of the Company.

- (2) Haitong Capital, a wholly-owned subsidiary of the Company, transferred 2,440,846,824 domestic shares of Haitong UT held by it to Haitong Innovation Securities, a wholly-owned subsidiary of the Company. Haitong Capital reduced its registered capital from RMB10,650 million to RMB7,500 million and reduced its capital by RMB3,150 million. The Company provides a general guarantee of RMB1,055,020.8 thousand of outstanding debts during Haitong Capital's capital reduction process. This guarantee was reviewed and approved by the Company at the 14th meeting (extraordinary meeting) of the seventh session of the Board on 29 January 2021.

As of 30 June 2021, the Company's guarantee balance of such liability was RMB414,992.2 thousand.

- (3) On 25 April 2019, the Company convened the 37th meeting of the sixth session of the Board, at which the Resolution on Providing Joint Liability Guarantee for Offshore Debt Financing of an Offshore Wholly-owned Subsidiary was considered and approved, and the Company was approved to provide a joint liability guarantee for offshore debt financing (including but not limited to issuance of overseas bond, medium-and long-term commercial borrowings and other financing methods in compliance with regulatory requirements) of the offshore wholly-owned subsidiary Haitong International Holdings Limited and wholly-owned subsidiaries thereof, with a guarantee amount of not more than USD670 million covering debt financing principal (inclusive, or other currencies with equivalent value), interest and other fees to be borne by the borrower, and a guarantee period of not more than 10 years (inclusive).

The Company signed the deed of guarantee on 12 March 2020, pursuant to which, the Company provided joint liability guarantee for the issue of an USD bond with the amount of USD670 million and an interest rate of 2.107% which will be due in 2025 by Haitong International Finance Holdings 2015 Limited, an offshore wholly-owned subsidiary of the Company.

Section VI SIGNIFICANT EVENTS

- (4) On 29 August 2018, the Company held the 31st meeting of the sixth session of the Board, at which the Resolution on Providing Joint Liability Guarantee for Offshore Debt Financing of an Offshore Wholly-owned Subsidiary was considered and approved. On 22 March 2019, the Company signed the Loan Agreement as a guarantor to provide a joint liability guarantee of EUR375 million for the syndicated loan of Haitong Investment Ireland Public Limited Company, an indirect offshore wholly-owned subsidiary of the Company.
- (5) On 29 August 2017, the Company held the 25th meeting of the sixth session of the Board, at which the Resolution on Providing Joint Liability Guarantee for Offshore Debt Financing of an Offshore Wholly-owned Subsidiary was considered and approved. The Company signed the Loan Agreement as a guarantor on 14 May 2018, and provided US\$600 million joint liability guarantee for the syndicated loan of Haitong International Holdings, an offshore wholly-owned subsidiary of the Company.

Section VII CHANGES IN SHARES AND PARTICULARS ABOUT SHAREHOLDERS

Note 2: A shareholder has a “long position” if such shareholder has an interest in shares, including interests through holding, selling or issuing financial instruments (including derivatives) under which: (i) such shareholder has a right to purchase the underlying shares; (ii) such shareholder is under an obligation to purchase the underlying shares; (iii) such shareholder has a right to receive money if the price of the underlying shares increases; or (iv) such shareholder has a right to avoid or reduce loss if the price of the underlying shares increases.

Note 3: A shareholder has a “short position” if such shareholder borrows shares under a securities borrowing and lending agreement, or holds, sells or issues financial instruments (including derivatives) under which: (i) such shareholder has a right to require another person to subscribe the underlying shares; (ii) such shareholder is under an obligation to deliver the underlying shares; (iii) such shareholder has a right to receive money if the price of the underlying shares declines; or (iv) such shareholder has a right to avoid or reduce loss if the price of the underlying shares declines.

Note 4: For the avoidance of doubt, as the scope of the abovementioned interest disclosure is not limited to the actual shares held by the relevant shareholders. There may be difference between the number and percentage of shares held by the relevant shareholders shown in this table and the number and percentage of shares beneficially held by the relevant shareholders disclosed in other parts of the interim report.

Save as disclosed above, as at 30 June 2021, the Company was not aware of any other person (other than the Directors, Supervisors and chief executive of the Company) having any interests or short positions in the shares or underlying shares of the Company which are required to be recorded in the register pursuant to Section 336 of the SFO.

Directors, Supervisors and chief executive’s interests and short positions in the shares, underlying shares or debentures of the Company and its associated corporations

As at 30 June 2021, according to the information obtained by the Company and so far as the Directors are aware, none of the Director(s), Supervisor(s) and chief executive of the Company had any interests or short positions in the shares, underlying shares and debentures of the Company or its associated corporation (as defined under the Part XV of the SFO), which shall be notified to the Company and the Hong Kong Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests or short positions which are taken or deemed to have under such provisions of the SFO) or which would be required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein, or would be required, pursuant to the Model Code, to be notified to the Company and the Hong Kong Stock Exchange.

REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

TO THE BOARD OF DIRECTORS OF HAITONG SECURITIES CO., LTD.

(Incorporated in the People's Republic of China with limited liability)

INTRODUCTION

We have reviewed the interim condensed consolidated financial information set out on pages 114 to 188, which comprises the interim condensed consolidated statement of financial position of Haitong Securities Co., Ltd. (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2021, the interim condensed consolidated statement of profit or loss, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity, the interim condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the six months ended 30 June 2021

(All amounts in RMB'000 unless otherwise stated)

1. GENERAL INFORMATION

Haitong Securities Co., Ltd. (the "Company") was transformed from Shanghai Haitong Securities Company (上海海通證券公司), which was established in 1988, to a limited liability company upon the authorisation by the People's Bank of China in September 1994 and changed its name to 海通證券有限公司. In December 2001, the Company was further transformed to a joint-stock company upon the approval from China Securities Regulatory Commission (the "CSRC"). In January 2002, the Company changed its name from 海通證券有限公司 to Haitong Securities Co., Ltd. (海通證券股份有限公司). In June 2007, the Company's merger with former Shanghai Urban Agro-Business Co., Ltd. (上海市都市農商社股份有限公司) was approved by the CSRC, and was listed on the Shanghai Stock Exchange in July in the same year. After its listing, its name was changed to "Haitong Securities". On 27 April 2012, the Company issued H shares which were listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange").

The address of the Company's registered office and the principal place of business is Haitong Securities Building, No. 689 Guangdong Road, Shanghai, the People's Republic of China (the "PRC").

The Company and its subsidiaries (the "Group") are principally engaged in securities brokerage; securities proprietary trading; securities underwriting and sponsorship; securities investment consulting; financial advisory services relating to securities trading and investment activities; direct investment; securities investment fund consignment; provision of intermediary introduction business for the futures companies; margin financing and securities lending; agency sale of financial products; the stock options market making; other businesses approved by the CSRC. In addition, the Company is permitted to set up subsidiaries that are engaged in outbound investments including investments in financial products (Projects subject to approval as required by laws shall be conducted upon approvals by relevant authorities).

The interim condensed consolidated financial information is presented in Renminbi ("RMB"), which is also the functional currency of the Company.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standards ("IAS") 34, "Interim Financial Reporting" and applicable disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The interim condensed consolidated financial information has been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value, as appropriate.

The Group adopted the going concern basis in preparing its interim condensed consolidated financial information.

The interim condensed consolidated financial information does not include all the notes of the type normally include in an annual financial statement. Accordingly, it should be read in conjunction with the annual financial statements for the year ended 31 December 2020, which have been prepared in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB"), and any public announcement made by the Company during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out in 2.1 below.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 New and amended standards adopted by the Group

The Group has adopted the new and amended standards from 1 January 2021 in their first interim financial statements:

- (a) *Covid-19-related Rent Concessions – Amendments to IFRS 16*
- (b) *Interest Rate Benchmark Reform Phase 2 – Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16*

Amendments to IFRSs issued (Interest Rate Benchmark Reform Phase 2) represents the second phase of the project on the effects of interest rate benchmark reform, addressing issues affecting financial statements when changes are made to contractual cash flows and hedging relationships as a result of reform.

Under these amendments, changes made to financial instruments measured at other than fair value through profit or loss that are economically equivalent and required by interest rate benchmark reform do not result in the derecognition or a change in the carrying amount of the financial instrument, but instead require the effective interest rate to be updated to reflect the change in the interest rate benchmark. In addition, hedge accounting will not be discontinued solely because of the replacement of the interest rate benchmark if the hedge meets other hedge accounting criteria.

The following table shows the outstanding carrying amount of financial instruments subject to interest rate benchmark reform yet to transition to alternative benchmarks, by main benchmark, as at 30 June 2021:

	Hong Kong Interbank Offered Rate ("HIBOR") RMB('000)	London Interbank Offered Rate ("LIBOR") RMB('000)
Financial assets		
Financial assets at fair value through profit or loss	448,410	193,833
Financial assets held under resale agreement	156,431	–
Other loans and receivables	2,533,616	323,055
Loans and advances	–	585,901
Accounts receivable	–	290,961
Derivative financial assets	–	4,120
Financial liabilities		
Borrowings and bonds payable	24,358,698	14,040,832
Financial liabilities at fair value through profit or loss	–	19,383
Derivative financial liabilities	4,972	171,133
Financial assets sold under repurchase agreement	1,565,975	12,922
Lease liabilities	252,415	–

The amendments have had no impact on the interim condensed consolidated financial information as none of the above contracts has been transitioned to the relevant reform rates as at 30 June 2021.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 *Impact of standards issued but not yet applied by the Group*

There are no other standards that are not yet effective and that would be expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

2.3 *Critical accounting estimates and judgements*

The Group continually evaluates the significant accounting estimates and judgements applied based on historical experience and other factors, including reasonable expectations of future events. The critical accounting estimates and key assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are consistent with these policies applied in preparing the financial information for the year ended 31 December 2020.

3. SEGMENT REPORTING

Information reported to the chief operating decision maker (the "CODM"), being the board of directors of the Company, for the purposes of resource allocation and assessment of segment performance focuses on the nature of products sold and services provided by the Group, which is also consistent with the Group's basis of organisation, whereby the businesses are organised and managed separately as individual strategic business units that offers different products and serves different markets. The Group's business segments are classified in accordance with the requirements of IFRSs, and are based on the internal organisation structure, management requirements and internal reporting system. The reporting segments are determined based on business segments. A business segment is a component of the Group with all the following conditions satisfied: (1) such component is able to generate revenue and expenses in the ordinary course of the Group, (2) CODM periodically evaluates the operating results of these reporting segments to make decisions about resources to be allocated to the segments and assess their performance; (3) the Group has access to such component's accounting information including financial position, operating results and cash flows. If two or more business segments have similar economic characteristics or a similar business model, they may be combined as one business segment. Based on its strategic planning and internal management requirements, the Group determines six business segments: wealth management, investment banking, asset management, trading and institution, finance lease and others. Classification of reporting segments is consistent with that of business segments.

Segment information is measured in accordance with the accounting policies and measurement criteria adopted by each segment when reporting to CODM, which are consistent with the accounting and measurement criteria in the preparation of the interim condensed consolidated financial information.

3. SEGMENT REPORTING (continued)

Specifically, the Group's operating segments are as follows:

- (1) Wealth Management Segment engages in provision of a full range of financial services and investment solutions to retail and high net-worth clients. Services provided include brokering and dealing in securities and futures, investment consulting, wealth management as well as financial services such as margin financing, securities lending, stock pledge, etc.;
- (2) Investment Banking Segment engages in provision of sponsoring and underwriting services to enterprises and government clients for their fund raising activities in equity and debt capital markets, and also engages in provision financial consulting services for enterprises for their corporate actions such as merger and assets restructuring services as well as provision of services related to the National Equities Exchange and Quotations;
- (3) Asset Management Segment engages in provision of investment management services on diversified and comprehensive investment products including asset management, fund management, and private equity management to individual, corporate and institutional clients;
- (4) Trading and Institution Segment engages in provision of stock sales and trading, prime brokerage, stock lending, and stock research in financial markets across the world to global institutional clients, and also engages in provision of market-making services for fixed income, currency and commodity products, futures and options, and derivatives on major exchanges around the world;
- (5) Finance Lease Segment engages in provision of innovative financial solutions, including finance lease, operating lease, factoring, entrustment loans and relevant consulting to individuals, enterprises and government clients;
- (6) Others Segment engages in provision of other comprehensive financial and information services to institutional clients, including warehouse receipts pledge service, etc.

Segment profit/loss represents the profit earned by/loss measured by each segment without allocation of income tax expenses. This is the measure reported to CODM for the purposes of resource allocation and performance assessment.

Share of profit/loss of associates and joint ventures are allocated to segment profit while the corresponding investments in associates and joint ventures are not allocated to each segment.

4. COMMISSION AND FEE INCOME

	Six months ended 30 June	
	2021 (Unaudited)	2020 (Unaudited)
Securities, futures and options dealing and broking fee income	4,528,298	3,761,444
Underwriting and sponsors fees	2,392,905	1,604,606
Asset management fee income (including fund management fee income)	1,845,893	1,652,487
Financial advisory and consultancy fee income	291,438	262,842
Others	72,764	69,060
	9,131,298	7,350,439

The major business types of commission and fee income from customers are as follows:

(1) Brokerage

The Group provides broking, dealing and handling services for securities, futures and options contracts. Commission income is recognised at a point in time on the execution date of the trades at a certain percentage of the transaction value of the trades executed.

(2) Investment Banking

The Group provides placing, underwriting or sub-underwriting services to customers for their fund-raising activities in equity and debt capital markets, and also structured products arrangement services. Revenue is recognised at a point in time when the relevant placing, underwriting, sub-underwriting or structured products arrangement activities are completed. The Group also provides sponsoring services to clients for their fund-raising activities and corporate advisory services to corporate clients for their corporate actions. The Group considers that all the services promised in a particular contract of being a sponsor or corporate advisor are interdependent and interrelated and should therefore be accounted for as a single performance obligation.

(3) Asset management

The Group provides asset management and investment advisory services on diversified and comprehensive investment products to customers. The customers simultaneously receive and consume the benefit provided by the Group, hence the revenue is recognised as a performance obligation satisfied over time. Asset management fee income is charged at a fixed percentage per month of the net asset value of the managed accounts under management of the Group. The Group is also entitled to a performance fee when there is a positive performance for the relevant performance period and it is recognised at the end of the relevant performance period, when it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and when the uncertainty associated with the variable consideration is subsequently resolved.

As at 30 June 2021, the Group's contracts with customers mostly have original expected duration of less than one year.

The Group leases various land and buildings, electronic equipment, transportation equipment and others for its operations. Most lease contracts are entered into for terms from 1 year to 40 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

34. ADVANCES TO CUSTOMERS ON MARGIN FINANCING (Continued)

Movement of allowance for ECL (Continued)

The table below shows the credit risk exposures of the Group's advances to customers on margin financing, which are subject to ECL assessment:

Gross carrying amount

	Stage 1 12m ECL	Stage 2 Lifetime ECL (not credit- impaired)	Stage 3 Lifetime ECL (credit- impaired)	Total
As at 30 June 2021 (Unaudited)	77,058,737	1,692,209	3,114,071	81,865,017
As at 31 December 2020 (Audited)	69,521,902	2,188,383	3,442,320	75,152,605

Note:

- (i) The credit facility limits for margin clients are determined by the discounted market value of the collateral securities accepted by the Group.
- (ii) The majority of the loans to margin clients, which are secured by the underlying pledged securities, are interest bearing. The Group maintains a list of approved stocks for margin lending at a specified loan to collateral ratio. Any excess in the lending ratio will trigger a margin call which the customers have to make up the shortfall.
- (iii) Loans to margin clients as at 30 June 2021 were secured by the customers' securities to the Group as collateral with undiscounted market value of approximately RMB272,634,283 thousand (31 December 2020: RMB255,840,832 thousand).
- (iv) As at 30 June 2021, cash collateral received from clients for securities lending and margin financing arrangement, included in the Group's accounts payable to brokerage clients amounted to approximately RMB9,182,025 thousand (31 December 2020: RMB8,634,304 thousand).
- (v) The directors of the Company are of the opinion that the aging analysis does not give additional value in view of the nature of the business. As a result, no aging analysis is disclosed. The Group determines the allowance for impaired debts based on the evaluation of collectability and management's judgment including the assessment of change in credit quality, collateral and the past collection history of each client. The concentration of credit risk is limited due to the customer base being large and unrelated.

43. ACCOUNTS PAYABLE TO BROKERAGE CLIENTS

The majority of the accounts payable balance is repayable on demand except where certain accounts payable to brokerage clients represent margin deposits received from clients for their trading activities under normal course of business. Only the excess amounts over the required margin deposits stipulated are repayable on demand.

Accounts payable mainly include money held on behalf of clients at the banks and at the clearing houses by the Group.

As at 30 June 2021, the cash received from clients for securities lending and margin financing arrangement as collaterals, included in the Group's accounts payable to brokerage clients amounted to approximately RMB9,182,025 thousand (31 December 2020: RMB8,634,304 thousand).

Accounts payable to brokerage clients is interest bearing at the prevailing interest rates.

Non-current liabilities	18,174,825	10,012,227
	38,631,287	32,238,301

Notes:

- (i) As at 30 June 2021 and 31 December 2020, the difference between the fair values of the Group's financial liabilities designated at FVTPL and the contractual payables at maturity is not significant. During the six months ended 30 June 2021 and year ended 31 December 2020, the amounts of changes in the fair value that are attributable to changes in the Group's own credit risk are not significant.
- (ii) As at 30 June 2021 and 31 December 2020, included in the Group's financial liabilities designated at FVTPL are structured notes issued by subsidiaries of the Group which arise from selling structured products generally in the form of notes or certificates of which pay-outs are linked to the values/returns of certain underlying investments related to listed equity investments in active markets, listed/unlisted debt instruments, listed/unlisted investment funds, unlisted financial products and unlisted equity or partnership investments.
- The risk of economic exposure on these structured products is primarily mitigated using financial assets at FVTPL. These structured products are designated as FVTPL as the risks to which the Group is a contractual party are managed on a fair value basis as part of the Group's trading portfolio and the risk is reported to key management personnel on this basis.
- (iii) The Group entered into a number of option contracts in relation to fair value of gold bullions. These contracts as a combination intend to enable the Group to pay a fixed flow despite the volatilities of fair value of gold bullions. These contracts were designated at FVTPL.
- (iv) The Group issued some income certificates which were hybrid contracts containing embedded derivatives such as securities index. The entire hybrid contracts were designated at FVTPL upon initial recognition.

Sales and repurchase agreements are transactions in which the Group sells a security and simultaneously agrees to repurchase it (or an asset that is substantially the same) at a fixed price on a future date. Since the repurchase prices are fixed, the Group is still exposed to substantially all the credit risks and market risks and rewards of those securities sold. These securities are not derecognised from the financial information but regarded as "collateral" for the liabilities because the Group retains substantially all the risks and rewards of these securities.

The following tables provide a summary of carrying amounts or fair values related to transferred financial assets of the Group and the associated liabilities:

53. RESERVES AND RETAINED EARNINGS

The amounts of the Group's reserves and the movements therein during the year are presented in the consolidated statement of changes in equity.

(a) Capital reserve

The balance of capital reserve mainly includes share premium arising from the issuance of new shares at prices in excess of par value attributable to shareholders of the Company and other capital reserve arising from equity transactions.

(b) Revaluation reserve

It mainly represents the fair value changes of debt instruments measured at FVTOCI and equity instruments measured at FVTOCI.

(c) General reserves

The general reserves comprise statutory reserve, general risk reserve and transaction risk reserve.

Pursuant to the Company Law of the PRC, 10% of the net profit of the Company, as determined under the PRC accounting regulations and before distribution to shareholders, is required to be transferred to a statutory reserve until such time when this reserve represents 50% of the share capital of the Company. The reserve appropriated can be used for loss-covering, expansion of production scale and capitalisation, in accordance with the Company's articles of association or approved by the shareholders in a shareholders' general meeting.

In accordance with the Financial Rules for Financial Enterprises, the Company is required to appropriate 10% of net profit derived in accordance with the relevant accounting rules in the PRC before distribution to shareholders as general risk reserve from retained earnings.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the six months ended 30 June 2021
(All amounts in RMB'000 unless otherwise stated)

53. RESERVES AND RETAINED EARNINGS (Continued)

(c) General reserves (Continued)

Pursuant to the Securities Law of the PRC, the Company is required to appropriate 10% of the net profit derived in accordance with the relevant accounting rules in the PRC before distribution to shareholders as transaction risk reserve from retained earnings and cannot be distributed or transferred to share capital.

(d) Distributable profits

In accordance with the relevant regulations, the distributable profits of the Company is deemed to be the lower of (i) the retained earnings determined in accordance with PRC GAAP and (ii) the retained earnings determined in accordance with IFRSs.

54. PERPETUAL INSTRUMENTS

	30 June 2021 RMB'000	31 December 2020 RMB'000
Perpetual instruments issued by UniTrust (Note)	1,801,816	1,523,756
Perpetual instruments issued by Haitong Bank	29,160	29,160
	1,830,976	1,552,916

Note: As at 14 December 2020, UniTrust issued a renewable trust loan with principal amount of RMB286,500 thousand.

The above financial instrument has no fixed maturity date and UniTrust may choose to defer the principal in accordance with the contractual terms or expire when the issuer is redeemed in accordance with the contractual terms. UniTrust has the right to redeem at par value plus interest payable.

Unless the compulsory interest payment events mentioned below have occurred, UniTrust has the right to choose to defer interest payment at each interest payment date without time limit of deferrals, which is not considered as a breach of the contract for the issuer.

UniTrust could not defer current interests and all deferred interests when the following compulsory interest payment events occurred within 12 months before the interest payment date:

- to declare and pay dividend to ordinary shareholders
- to decrease registered capital
- to redeem or pay interest to other equity instrument which the payment sequence is inferior to this renewable trust loan

As at 26 February 2021, UniTrust issued renewable corporate bonds with an interest date of 1 March 2021 and a total amount of RMB1,500,000 thousand.

The above financial instrument has no fixed maturity date and UniTrust may last for a long time before redemption in accordance with the terms of issue. UniTrust can choose to redeem the principal in accordance with the terms of issue and expire when the issuer redeems in accordance with the terms of issue.

Unless the compulsory interest payment events mentioned below have occurred, UniTrust has the right to choose to defer interest payment at each interest payment date without time limit of deferrals, which is not considered as a breach of the contract for the issuer.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the six months ended 30 June 2021

(All amounts in RMB'000 unless otherwise stated)

54. PERPETUAL INSTRUMENTS (Continued)

UniTrust could not defer current interests and all deferred interests when the following compulsory interest payment events occurred within 12 months before the interest payment date:

- to pay dividend to ordinary shareholders
- to decrease registered capital

As at 12 March 2021, UniTrust decided to choose to exercise the redemption right, and redeemed the perpetual medium-term note issued on 11 March 2016 with principal amount of RMB1,200,000 thousand.

Based on the terms and conditions mentioned above, the directors of UniTrust are of the view that the Group has an unconditional right to avoid delivering cash or other financial assets. Accordingly, the above perpetual note is measured as other equity instrument under IAS 32 Financial Instruments: Presentation.

For the six months ended 30 June 2021, profit attributable to the holders of the perpetual notes of the Group amounted to RMB57,336 thousand (For the six months ended 30 June 2020: RMB50,211 thousand), which are determined with reference to the distribution rates specified in the terms and conditions.

55. CREDIT COMMITMENTS

	30 June 2021 (Unaudited)	31 December 2020 (Audited)
Contingent liabilities		
– Guarantees and standby letters of credit	926,448	1,145,716
Commitments		
– Irrevocable credit commitments	491,104	510,162

Guarantees and standby letters of credit are banking operations that may imply out-flow by the Group only at default condition.

Irrevocable credit commitments represent contractual agreements to extend credit to the Group's customers (e.g. unused credit lines). These agreements are, generally, contracted for fixed periods of time or with other expiration requisites, and usually require the payment of a commission. Substantially, all credit commitments require that clients maintain certain conditions verified at the time when the credit was granted.

Notwithstanding the particular characteristics of these guarantees and commitments, the analysis of these operations follows the same basic principles of any other commercial operation, namely the solvency of the underlying client and business, being that the Group requires these operations to be adequately covered by collaterals when needed.

As it is expected that the majority of these guarantees and commitment will expire without being used, the amounts disclosed above are not representative of the future cash outflows.

60. INTEREST IN CONSOLIDATED STRUCTURED ENTITIES

The Group had consolidated certain structured entities including asset management products. The Group assesses whether the combination of investments it held, if any, together with its remuneration and other interests creates exposure to variability of returns from the activities of the asset management products that is of such significance that it indicates that the Group is a principal.

The financial impact of these asset management products on the Group's financial position as at 30 June 2021 and 31 December 2020, and the results and cash flows for the six months ended 30 June 2021 and the year ended 2020, though consolidated, are not individually significant to the Group. Therefore, the financial information of these consolidated structured entities is not disclosed individually.

Interests in all consolidated structured entities directly held by the Group amounted to fair value of RMB34,179,732 thousand and RMB27,879,408 thousand at 30 June 2021 and 31 December 2020, respectively. It contains the interests in the subordinated tranche of those structured products held by the Group. The Group provides credit enhancement to the senior tranche investors by holding such subordinated tranche interests. As at 30 June 2021 and 31 December 2020, the fair value of the Group's interests in the subordinated tranche of those structured products is RMB285,101 thousand and RMB296,544 thousand respectively.

Interests held by other interest holders are included in financial liabilities at fair value through profit or loss in the consolidated statement of financial position and the corresponding changes are presented as changes in net investment gains or losses in the consolidated statement of profit or loss.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the six months ended 30 June 2021

(All amounts in RMB'000 unless otherwise stated)

61. INTERESTS IN UNCONSOLIDATED STRUCTURED ENTITIES

Except for the structured entities the Group has consolidated as detailed in Note 60, in the opinion of the directors of the Company, the variable returns the Group exposed to over the structured entities that the Group acts as manager for or invests in are not significant. The Group therefore did not consolidate these structured entities.

The carrying amount of unconsolidated structured entities in which the Group acted as investment manager and held financial interests and its maximum exposure to loss in relation to those interests amounted to RMB14,376,620 thousand and RMB18,234,797 thousand as at 30 June 2021 and 31 December 2020, respectively. For the six months ended 30 June 2021, total fee income from all unconsolidated structured entities in which the Group acted as investment manager is RMB1,722,421 thousand (for the six months ended 30 June 2020: RMB1,578,729 thousand).

In addition to those interests in unconsolidated structured entities managed by the Group as disclosed above, the Group also has interests in unconsolidated structured entities in which the Group did not act as investment manager. The total maximum exposure to loss in relation to the Group's interests in structured products is close to their respective carrying amounts.

62. OTHER DISCLOSURES RELATED TO SUBSIDIARIES

A subsidiary of the Group may become, or has become, a subject of litigation or arbitration in relation to its normal course of business. Any situation will be reviewed in conjunction with the subsidiary's legal advisors. The Group considers that the eventual impact to the consolidated financial statements in terms of possible outflow of economic benefits will not be significant.

64. FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include equity instruments and debt instruments at fair value through other comprehensive income, financial instruments at fair value through profit or loss, derivative instruments, financial assets held under resale agreements, other loans and receivables, loans and advances, advances to customers on margin financing, accounts receivable, other receivables, placements to banks and other financial institutions, deposits with exchanges, clearing settlement funds, restricted bank deposits, bank balances and cash, receivables arising from sale and leaseback arrangements, borrowings, financial assets sold under repurchase agreements, accounts payable to brokerage clients and other payables and accruals. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments and finance lease receivables include market risk (price risk, currency risk and interest rate risk), credit risk and liquidity risk. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

During the six months ended 30 June 2021, there has been no material changes in the risk management policies. The interim condensed consolidated financial information does not include all financial risk management information and disclosure and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2020.

(All amounts in RMB'000 unless otherwise stated)

65. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Some of the Group's financial assets and liabilities are measured at fair value for financial reporting purposes. The board of directors of the Group has set up certain process to determine the appropriate valuation techniques and inputs for fair value measurements. The appropriateness of the process and the determination of fair value are reviewed by the board of directors periodically.

65.1 Financial instruments not measured at fair value

The table below summarises the carrying amounts and expected fair values with obvious variances of those financial assets and liabilities not presented on the Group's consolidated statement of financial position at their fair values.

	As at 30 June 2021 (Unaudited)		As at 31 December 2020 (Audited)	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Debt instruments measured at amortised cost	3,769,778	3,775,770	3,763,499	3,764,352
Financial liabilities				
Non-convertible bonds payable	156,226,873	155,652,605	147,732,681	161,831,219

Except for the above, the directors of the Group consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the Group's statements of financial position approximate their fair values.

65.2 Financial instruments measured at fair value on a recurring basis

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3.

For Level 1 financial instruments, fair values are unadjusted quotes in active markets for identical assets.

For Level 2 financial instruments, valuations are generally calculated based on the fair value of the underlying investments which are debt securities or publicly traded equity instruments in each portfolio or obtained from third party pricing services agent such as China Central Depository & Clearing Co., Ltd. which are based on the discounted cash flow models, recent transaction prices or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

For Level 3 financial instruments, the management obtains valuation quotations from counterparties or uses valuation techniques to determine the fair value, including discounted cash flow analysis, net asset value, market comparison approach and option pricing model, etc. The fair value of these financial instruments may be based on unobservable inputs which may have significant impact on the valuation of these financial instruments, and therefore, these assets and liabilities have been classified by the Group as level 3. The unobservable inputs which may have impact on the valuation include weighted average cost of capital, liquidity discount, price to book ratio, etc.
